

Keeping the home safe

Encourage your family members to...

All households

- Clean hands at the door and at regular intervals
- Create habits and reminders to avoid touching their face and cover coughs and sneezes
- Disinfect surfaces like doorknobs, tables, and handrails regularly
- Increase ventilation by opening windows or adjusting air conditioning

Households with vulnerable seniors or those with significant underlying conditions

Significant underlying conditions include heart, lung, kidney disease; diabetes; and conditions that suppress the immune system

- Have the healthy people in the household conduct themselves as if they were a significant risk to the person with underlying conditions. For example, wash hands frequently before interacting with the person, such as by feeding or caring for the person
- If possible, provide a protected space for vulnerable household members
- Ensure all utensils and surfaces are cleaned regularly

Households with sick family members

- Give sick members their own room if possible, and keep the door closed
- Have only one family member care for them
- Consider providing additional protections or more intensive care for household members over 65 years old or with underlying conditions

Keeping the workplace safe

Encourage your employees to...

Practice good hygiene

- Stop handshaking – use other noncontact methods of greeting
- Clean hands at the door and schedule regular hand washing reminders by email
- Create habits and reminders to avoid touching their faces and cover coughs and sneezes
- Disinfect surfaces like doorknobs, tables, desks, and handrails regularly
- Increase ventilation by opening windows or adjusting air conditioning

Be careful with meetings and travel

- Use videoconferencing for meetings when possible
- When not possible, hold meetings in open, well-ventilated spaces
- Consider adjusting or postponing large meetings or gatherings
- Assess the risks of business travel

Handle food carefully

- Limit food sharing
- Strengthen health screening for cafeteria staff and their close contacts
- Ensure cafeteria staff and their close contacts practice strict hygiene

Stay home if...

- They are feeling sick
- They have a sick family member in their home

Keeping commercial establishments safe

Encourage your employees and customers to...

Practice good hygiene

- Stop handshaking – use other noncontact methods of greeting
- Clean hands at the door, and schedule regular hand washing reminders by email
- Promote tap and pay to limit handling of cash
- Disinfect surfaces like doorknobs, tables, desks, and handrails regularly
- Increase ventilation by opening windows or adjusting air conditioning

Avoid crowding

- Use booking and scheduling to stagger customer flow
- Use online transactions where possible
- Consider limiting attendance at larger gatherings

For transportation businesses, taxis, and ride shares

- Keep windows open when possible
- Increase ventilation
- Regularly disinfect surfaces
